Hello Greg,

I wanted to thank you for the smooth, quick and simple process of selling one of my listings to you a couple weeks ago. When I received your email and sent you the property I had no clue that we would be closing less than three weeks later. You quickly assessed the value by having your contractor look at the work needed and allowed me to write your offer within 2 days at an acceptable price for the seller and yourself. I felt no pressure to help you negotiate and/or violate my duty to the seller. I will be sure to let you know about any of my listings that fit your criteria and look forward to the possibility of working with you again. You are a business man of your word and both my seller and I appreciate you closing so quickly.
