To Whom It May Concern:

I wanted to sell a rental house of mine. I called Greg because his advertisement stated he bought rentals and was able to keep the tenant in place. I didn't want to disturb my tenant because he had been there for years and was a great tenant! Greg saw the property and placed a fair offer on the home. He did as advertised and bought the house and kept my tenant. It was a great relief to be able to sell my rental without the stress of asking my tenant to move. I highly recommend him to any landlord looking to sell their rental or to anyone who needs to sell their property for any reason.
