Recommendation.

I would like to say Greg and his company did a fabulous job buying my mother's home. Unfortunately we loss my father unexpectedly and decided my mother would move to Indiana to be near me and my children. We had another realtor state he would give us a great price and close quickly, however he backed out at the last minute. I personally felt it was unprofessional and mother was very upset. I found Greg on the internet and gave him a call. He sent his contractor out the very next day and may us a great offer we couldn't refuse. From the moment we started working with Greg and his colleagues everything went smoothly and quickly. We are so grateful for his help during this difficult time with my mother after losing her husband of 43 years. My mother is now in Indiana with her first home she purchased on her own and we owe a ton of gratitude to Greg for that. If you need someone to buy your home for a great price and handle every detail with the utmost professionalism Greg and his staff are the people you want!!!!!! Again thanks Greg for everything you have done to assist us during this new journey in life. My mom said she couldn't have done it without you.

God Bless

Temeki and Loretta
