RE: Recommendation Letter

Dear Mr. Greg Norman:

I am writing this letter to express my thanks and gratitude of the sales experience I recently have with you. You have done all of what you have promised on the contract and were extremely flexible in your dealing/handling of this entire transaction from the initial contract to the final sale of the property. I have been kept fully informed of all the developments related to this transaction in a timely manner and never once I have received any telephone call on any minor or major repair works or any issue related to upkeep of the house. This was really in itself is a testimony of your superb management style and going above and beyond the duty of call. I truly commend you for that.

One of the best things I like about this arrangement was to avoid paying any sales commission to the real estate agent and handing over the property in "AS In Condition" without doing any upgrades at a competitive price. This was a truly win-win situation for me because I did not want to spend money and effort to have the property upgrade and sale it through the real estate agent.

I will strongly recommend yourself and your company to anyone who is looking to sell without hassle and want to have flexibility and want to be fully aware of the entire transaction process. I will be more than glad to talk and share with any prospect seller about my experience with yourself and your company.

Sincerely,

Ozair A. Abdullah
